Dear [redacted]

It is my personal desire to express the utmost appreciation for your assistance relative to the Special Working Panel during the period 13 November 1963 to 8 February 1964.

Your diligence and dedication to this study are particularly noteworthy in view of the personal sacrifice and inconvenience in the face of other duties which were involved.

As you realize, your efforts and those of your colleagues have been in the highest National interest, and I believe the work should serve as a firm technical foundation for further progress in this extremely complicated and sophisticated area.

Sincerely,

Albert D. Wheelon
Deputy Director
